## Purpose

The purpose of this report is to inform the school principal and school community of the destinations of students from St Thomas More College who completed Year 12 in 2016. This is one indicator of the outcomes of schooling.

A school may choose to use this information to:

- Review its senior schooling programs and services, e.g. subject offerings, career advice, links with employers and/or tertiary institutions
- Contribute to its reporting to parents, e.g. through its newsletter, annual reporting documents, website.

This report has been provided to the school and its school system, where this applies. The school may publish this report, if it wishes.

## Source of information

This report is based on the results of the annual *Next Step* survey for St Thomas More College. The *Next Step* survey, undertaken by the Queensland Government, targets all students who completed Year 12 and gained a Senior Statement in 2016, whether they attended a state, Catholic or independent school, or a TAFE secondary college. The Queensland Government Statistician's Office conducted the survey between March and June 2017, approximately six months after the young people left school. Responses were collected via computer-assisted telephone interviewing and an online survey.

The survey results were compiled and reported on by the *Next Step* team, Department of Education and Training.

Care should be taken in publicly using figures of less than three responses or percentages based on less than three responses.

## Privacy statement

To protect the privacy of individuals participating in the survey, this report contains summarised information only.

## Summary of findings

In 2017, 83.3% of young people who completed Year 12 at St Thomas More College in 2016 continued in some recognised form of education and training in the year after they left school.

The most common study destination was Bachelor Degree (65.0%). The combined VET study destinations accounted for 18.3% of respondents, including 10.0% in campus-based VET programs, with 6.7% of Year 12 completers entering programs at Certificate IV level or higher.

8.3% commenced employment-based training, all as apprentices.

In addition to the above study destinations, a further 5.0% of respondents from this school deferred a tertiary offer in 2017 (deferrers are included in their current destination).

16.7% did not enter post-school education or training, and were either employed (11.7%) or seeking work (5.0%).

There are a range of differences between and within school, regional and statewide destinations. Care should be taken when interpreting comparative data as the findings may relate to groups of different sizes.

## Response rate for St Thomas More College

**Table 1: Survey response rate, St Thomas More College 2017**

Number of respondents	Number of students who completed Year 12	Response rate (%)
60	124	48.4

Table 1 reports the response rate for St Thomas More College. It expresses the number of respondents from this school, as a percentage of all Year 12 completers who attended St Thomas More College in 2016.

Due to the low response rate, these results should be interpreted and used with caution.

Please note that some survey participants did not provide information for particular survey questions. As a result, the number of responses shown in Table 3 onwards may not reflect the totals reported for the main destinations appearing in Table 2.

## Main destination

The pathways of Year 12 completers were categorised into 10 main destinations. Year 12 completers who were both studying and working were reported as studying for their main destination. Please refer to Appendix 1 for more details about each main destination.
